PROFESSIONAL SUMMARY

Information Science student awaiting graduation (December 2026) from the University of Nairobi with a strong focus on Information Technology, Information Systems, software development, digital information management, and emerging technologies. Experienced in developing web and software solutions using modern frontend and backend technologies, databases, REST APIs, and cloud-based tools. Strong understanding of information systems, digital records, data management, and IT support.

Hands-on experience building software projects and startups using technologies including React, JavaScript, TypeScript, Python, PHP, Node.js, Express, Django, PostgreSQL, MySQL, MongoDB, and Kotlin. Familiar with AI-assisted development tools such as Cursor and modern development environments including VS Code and Android Studio. Interested in software development, IT systems, information management, digital transformation, and AI.

EDUCATION

University of Nairobi — Nairobi, Kenya

Bachelor of Information Science | 2022–2026

Concentration: Information Technology & Digital Records Management

Relevant areas:

- Information Systems
- Information Technology
- Database Management
- Digital Information Systems
- Records & Information Management
- Web Technologies
- Data Management
- Research & Information Analysis
- Project Management

Hema High School – Chitago

Kenya Certificate of Secondary Education (KCSE) | 2018–2021

Bondeni Primary School

Kenya Certificate of Primary Education (KCPE) | 2010–2017

Additional Training

- Computer Applications & Digital Skills Training
 - Driving School Training
-

PROFESSIONAL EXPERIENCE

Ministry of Information, Communications and Digital Economy

State Department for Broadcasting, ICT and Telecommunications — Nairobi
Information Science & Technology Attachment Student | June 2025 – September 2025

- Supported ICT-related activities within the organization.
- Assisted with computer hardware and software troubleshooting.
- Supported users with basic technical and system-related issues.
- Assisted with digital information organization and technology-related tasks.
- Gained practical exposure to ICT operations within a government institution.

Financial Advisor – Sales Intern

Jubilee Insurance, Thika
February 2026 – July 2026

- Interacted directly with customers and developed strong communication and interpersonal skills.
- Identified customer needs and provided appropriate information and assistance.
- Worked toward assigned targets while maintaining professionalism and reliability.
- Followed established procedures and maintained accurate customer information.
- Worked collaboratively with colleagues to achieve team objectives.
- Developed the ability to remain organized and effective in a target-driven environment.
- Demonstrated patience, discipline and professionalism when dealing with different customers.
-

Freelance IT Support & Data Technician

Google Development Groups (GDG Nairobi) | 2024 – Present

- Provided technical support, software installation, and troubleshooting services on campus tour events.
- Conducted data management, annotation, transcription, and website content administration for speakers.

- Supported workflow automation and digital content management projects with the group.

TECHNICAL SKILLS

Programming & Development

- JavaScript
- TypeScript
- Python
- Java
- PHP
- Kotlin
- HTML5 & CSS3
- Go

Frontend Development

- React
- JavaScript
- TypeScript
- HTML5 & CSS3
- Responsive Web Design

Backend Development

- Node.js
- Express 5
- Django
- REST APIs
- Spring Boot

Databases

- PostgreSQL
- MySQL

Mobile Development

- Kotlin
- Android Development

- Android Studio

- Gradle

Development Tools

- VS Code
- Cursor
- Android Studio
- Git & GitHub
- Docker
- Vite
- npm
- Postman

Information Technology

- Information Systems
- Database Administration
- IT Support & Troubleshooting
- Digital Records Management
- Data Management
- Digital Archiving
- Information Security Awareness
- Systems Support
- Network Fundamentals

AI & Emerging Technologies

- AI-assisted software development
- AI tools and productivity workflows
- Data annotation
- AI training

- Digital transformation
-

SELECTED SOFTWARE PROJECTS

Full-Stack Information Management / System Projects

Developed and worked on several software solutions combining modern frontend, backend, database, and information-management technologies.

Technologies: React, TypeScript, JavaScript, Node.js, Express, PostgreSQL, Drizzle ORM, REST APIs.

Key areas include:

- User authentication and authorization
- Database-driven applications
- REST API development
- CRUD operations
- Responsive interfaces
- Data management
- Administrative dashboards
- Information retrieval and organization

Notes & Information Management Application

Technologies: Django, React, SQLite, SimpleJWT

- Developed a web-based application for creating and managing personal information and notes.
- Implemented frontend and backend integration.
- Worked with authentication and JWT-based authorization.
- Designed database-driven functionality for information storage and retrieval.

Movie Application

Technologies: React, JavaScript

- Built a responsive movie application using React.
- Implemented component-based frontend architecture.
- Worked with API-driven content and dynamic interfaces.

School Management System

Technologies: React, backend APIs, JWT

- Worked on a system concept for managing school information.
- Designed authentication using access and refresh tokens.

- Implemented role-based system functionality and information management features.

Business & Management Systems

Developed concepts and prototypes for:

- Rental Management System
 - Barbershop Management System
 - Photographer Booking System
 - Coffee Menu System
 - Clothing E-commerce Platform
 - Company Management System
-

CORE COMPETENCIES

- Software Development
- Information Systems
- IT Support
- Database Management
- Web Development
- Digital Transformation
- Information Management
- Digital Records Management
- Data & Systems Analysis
- Problem Solving
- Technical Troubleshooting
- Research & Information Analysis

- AI & Emerging Technologies

PROFESSIONAL INTERESTS

- Full-Stack Software Development
 - Information Technology
 - Information Systems
 - Artificial Intelligence
 - Digital Transformation
 - Database Systems
 - Cloud Technologies
 - IT Consulting
 - Digital Records & Information Management
 - Mobile Application Development
-

LANGUAGES

- English
 - Kiswahili
